“There is an art to finding one’s direction in the lower regions by the memory of what we saw higher up. When one can no longer see, one can at least still know.”

– Rene Dumal

Dedication

To all those For Impact Leaders,

Who have the courage to:

'FLY' at 30,000’ (Vision)
'CLIMB' at 14,000’ (Strategy)
'ACT' at 3’ (Execution)
For Impact Guides

“One WAY to get where you want to go... is to find a good MAP and a smart GUIDE.”
– Juan Enriquez

These For Impact GUIDES on a particular topic or area are designed to help you find your ‘WAY’. (It’s the whole TAO thing.)

We can’t tell you how many times during our training or talks or with coaching clients we have had people stop us and say, “Just tell us what to do. You’ve been there, done this. Save us the time, money and energy.”

This is one way we can honor that request.

For Impact Guides are where we share our thoughts, ideas and experiences... in ‘nugget’ form...aggregated on a specific topic.

It’s meant to be a quick read. To provide motivation, as well as ‘How-To’.

READ. PRINT. SHARE. USE.

“Let us, therefore, decide both upon the GOAL and upon the WAY, and not fail to find some experienced GUIDE who has explored the region towards which we are advancing, for the conditions of this JOURNEY are different from those of most travel.”
– Seneca

THE ALTITUDE: FRAMEWORK

The For Impact ALTITUDE FRAMEWORK is one of our most referenced and utilized tools by our team, our coaches and our clients... TO RAISE THE LEVEL OF THEIR GAME!

The Altitude Framework works great for Presentations, Engagement Tools, Agendas/Meetings, Speaking, Strategic Plans and Action Plans.

It’s also a great Framework to respond to questions. (“At what altitude/level is the best or most appropriate response?”)

And, it’s a powerful coaching model. (“Let’s talk about this issue/topic at this particular altitude/level”)
At For Impact, we use this for everything from keynote speeches to our website. It’s a part of our mind mapping as we lay out our content, our guides and our books. We have color-coded it as Blue… Red… Green. And, it allows us to talk ‘shorthand’ and reach decisions ten times faster than a normal process.

One of the reasons that this framing device has been so popular is its obvious simplicity. Everyone can understand the hierarchy of WHY, WHAT and HOW… and they intuitively get the connection between VISION, STRATEGY and EXECUTION.

Following are some ways to help you understand and apply… ALTITUDE.

30,000’  View from Airplane  A Green Blur  Telescope

14,000  Top of Mountain  A Forest  Binoculars

3’  Map of the Earth  A Tree  Glasses

“He who knows the ‘WHY’ of his existence… can bear almost any ‘HOW’.”
– Viktor Frankl
ALTITUDE: PERSPECTIVE

At **30,000’**:  
An airplane’s cruising altitude, plenty of blue sky, a great view, etc. At 30,000’, our brain even seems to work better!

At this altitude/level, it’s all about your **vision**, your **aspirations**, your **raison d’être**. It’s a place to **think** and **talk** about your **mission**, your **meaning**, your **values**. It’s a place for Guiding Principles, Big Hairy Audacious Goals And Definite Chief Aims (as Napoleon Hill calls them).

My good friend Christopher Celeste pointed out that leaders and visionaries have the ability **to see the horizon**. Obviously, you can’t do that from 3’. There’s a good view at 14,000’… but an absolute gorgeous view at 30,000’. You can see the curve of the earth, the rising and setting of the sun. The **perspective** at 30,000’ is unmatched. This is where you can think about making Steve Jobs’ “dent in the universe”… and dream about **CHANGING THE WORLD**!

At **14,000’**:  
It’s the view and perspective from the ‘top of the mountain’. (In the Rockies, they’re called ‘fourteeners’). The air is thinner, raptors soar. If 30,000’ is about **vision**… then 14,000’ is about **focus**. A place to talk about **Strategic Plans** and **Business Models** and **Funding Models**, and finding clarity around **Priorities**.

At 14,000’, Everything’s A Project (EAP)! Every project has goals, time lines, a team leader, a team, a budget, constraints, etc.

At **3’**:  
Literally, it’s ‘boots on the ground’, ‘feet on the street’. It’s **tactical**. It’s **execution**. It’s **ACTION**!
ACT NOW

“My dreams are worthless, my plans are dust, and my goals are impossible. All of no value unless they are followed by ACTION. I will ACT NOW.”

– Og Mandino

“The Greatest Salesman in the World

“READY. FIRE. AIM.”

– Tom Peters

“ENGAGE ... and then plan.”

– Andy Grove

“ACT or ASK.”

– Tom Suddes

“BOLDNESS has genius, power and magic in it. Only ENGAGE ... and then the mind grows heated. BEGIN IT, and then the work will be COMPLETED!”

– Johann Wolfgang Von GOETHE

– James Carville

– Julia Cameron

“If your ship doesn’t come in, swim out to meet it.”

ALTITUDE: FOR BOARDS

Here’s how you can use this Framework to create dialogue with your Board around their relationship with your organization.

• Your COLLECTIVE BOARD should be engaged at the 30,000’ level (WHY... we exist) around VISION and PURPOSE and MISSION.

• INDIVIDUAL Board Members (CHAMPIONS) can be engaged with you at the 14,000’ level around STRATEGY (WHAT...needs to be done.) They should be specifically asked to help within their own areas of expertise and experience.

• No Board/Board Member should be engaged with you or your organization at 3’!!! (the HOW).

“Our Board is AFRAID OF HEIGHTS!!!”
– Irish Social Entrepreneur

We can’t tell you how many times organizational leaders and staff have come up and said, “My Board is at 3” (inches)! They even tell us what kind of soda should go in the machine!”

*While we primarily use this for Boards, there’s a case to be made that no one should be dealing with issues at 3’... Micro-micro-managing..sweating the really, really small stuff, etc.

Action: Review this ALTITUDE FRAMEWORK with your Board. Encourage them to get and stay ‘HIGH.’ 😊
ALTITUDE: ENTREPRENEURIAL APPLICATION

ALTITUDE is a great way for an entrepreneur to answer these 3 critical questions:

- **WHY… are you in business?**
- **WHAT… business are you in?**
- **HOW… do you make money?**

Social Entrepreneurs can use this Framework to talk with angel investors, recruit talent and even organize the Business Model and Plan.

**Note: Latitude.** A small shift in the first two letters of ‘ALTITUDE’ opens up an entirely different way of looking at this: LATITUDE. Many of our Frameworks are laid out horizontally, still using our blue, red, green color code.
ALTITUDE: ENGAGEMENT TOOLS

While there have been many different uses and permutations of this 'thinking' at altitude... one of our favorites is for a visit and presentation.

All of our Engagement Tools are designed at altitude.

| 30,000’ | Why | Purpose | 'Blue' |
| 14,000 | What | Priorities | 'Red' |
| 3’ | How | Plan | 'Green' |

We have used this with hundreds of organizations on thousands of visits, as an integral, critical part of our Presentation FLOW. IT WORKS.

The WHY (PURPOSE) Start here. Once they are ON BOARD... move to.

The WHAT (PRIORITIES) Once they understand... it’s on to.

The HOW (PLAN) How you are going to execute. HOW you will Scale and Grow. HOW you will FUND.
ALITUDE: VISITS/PRESENTATIONS

Here is a deeper explanation of the power of 'ALITUDE' on a visit/presentation:

- **Always go (back) up.** Nick Fellers has a really great way to use 'altitude'/level on the presentation. When training or coaching, Nick makes this very clear: When in doubt… when challenged… when questioned… **ALWAYS GO BACK UP TO 30,000’!** (The Vision, The Message, The Purpose.)

- **Get 'buy-in' at the highest level.** As you make the Case for Support, the prospect/ potential investor needs to understand and acknowledge their acceptance of the 'blue' VISION and 'red' PRIORITIES. Sometimes this is “You had me at hello.” (Renee to Tom Cruise) Other times, it may take the entire first visit to get them to understand and agree that this is an important CAUSE and CASE. Regardless, it doesn’t make any sense to talk about PRIORITIES or the PLAN or ‘HOW THEY CAN HELP’ if they don’t ‘get it’ at the highest level!

- **Dissent on Descent.** To put this another way, there should be no 'dissent' on the descent!

  Think of this as kind of the opposite of getting the 'bends'. If a diver ascends too quickly, they get a case of the ‘bends’. It’s painful and many times life-threatening.

  During a presentation, the prospect can get the 'reverse-bends' if you descend too rapidly. “Hello. Thanks for seeing me. Here’s our campaign. Can you give $100,000?”

- **'Permission to Proceed'.** We have actually incorporated this specific terminology into the presentation. (It’s the words used to complete a ‘transfer’ on a high ropes challenge course!) “It seems like you're fully engaged with both our Mission and our Message. Would it be okay (permission to proceed) to go deeper and talk about our Strategic Priorities and our Plan to make all this happen???”

- **Altitude is not always top-down or hierarchical.** You can 'enter' at any level. You can focus on any level. You can travel up and down… and even side to side, especially when you’re using an Engagement Tool.
ALTITUDE: CLOSING THOUGHT

Your ATTITUDE, is impacted by your ALTITUDE and ATTITUDE really IS everything!

If you’re always at 3’, it’s hard to maintain a positive, visionary, can-do attitude.

I would encourage you to use this metaphor/framework as a way to increase your IMPACT (personally and organizationally).

“Seeing your life from a heightened perspective is more a matter of ATTITUDE than altitude.”

– Jeff Salz

“The ultimate human freedom: the ability to choose one’s ATTITUDE at a given set of circumstances.”

– Viktor Frankl

“The greatest discovery of my generation is that human beings can alter their lives by altering their minds (ATTITUDE).”

– William James
